Storekeeper Instruction: **GIVE TO DRIVER**

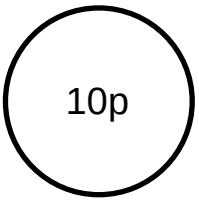
8T9B9ØØ639166ØØ1

Thank you for using Collect+ delivered by Yodel

The print quality of your label is important to help us deliver your parcel on time. Please take a moment to check the points below before attaching this label to your parcel.

1. Is the image below the size of a 10p piece?

If it isn't, your label is either too large or too small. Please check your settings and print again.



2. Is the box below solid black?

If it isn't, we won't be able to scan your barcode. Please check your ink levels and print again.

Once you have completed the above checks to ensure that the label is the correct size and quality, attach the label to your parcel preferably removing or covering any existing labels.

Please note, if these checks are not completed, your parcel may be delayed in reaching its destination.

Thank you for using Collect+ delivered by Yodel

What to do next:

+ Wrap your parcel securely
  + Always use a sturdy box or Jiffy Bag
  + Use plenty of padding inside to protect the contents
  + Seal the package with strong tape and attach the label on it, making sure none of the details are covered by tape and that any other labels have been removed, or completely covered

+ If you have our mobile app installed, scan the barcode on your return to track its progress back to the retailer. Details of your return will also be recorded in your Collect+ delivered by Yodel account

+ The Storekeeper will scan your parcel label and give you a receipt which you should keep as proof of postage. It includes a 7-character code which you can use to track your parcel online at collectplus.yodel.co.uk/track/new

+ Alternatively, you can use the tracking functionality on the Collect+ delivered by Yodel app to follow your parcel's progress. By scanning the return label into your account, proof of postage will automatically be stored in your account

Kind regards
